

PUMPKIN CITY

BIOGRAPHY

Pumpkin City is a movement. A call for imagination and thought from music. Deep blues and psychedelic rock transformed by elements of hip hop and 2 Tone have cemented a fan base that has been packing venues in the Atlanta area. Matthew's visuals are brought to life by voice, as Chris knocks holes in the wall with the bass end sound. Kiazami keeps the heads nodding through percussive chaos, framing up Brett's melodic, self-taught guitar tones, key to the song writing.

Reviews:

"Pumpkin City has a great combination of groove-oriented songs that get the bodies moving and edgier rock riffs... a unique band that can entertain diverse crowds."

Jesse Busch
